

“I am very pleased to endorse the Escoffier Online International Culinary Academy believing that this revolutionary method of teaching would surely have been embraced by the exceptional visionary Maitre Auguste Escoffier. This platform will advance his principles and classic techniques that have withstood the test of time. We all share a passion for food. It is well known that while the world eats to live, the French live to eat!

*Bonne chance* with your studies and all your future culinary endeavors.”
